

Examination Pro-forma

When completed the Lead Examiner is to return all pages (except for the temporary licence if the candidate was successful) directly to the BHPA office for processing.

PART 1 To be completed by the Examination Co-ordinator

Candidate's name _____ M/ship No. _____ Telephone No. _____

Type of examination applied for _____

Senior Examiner _____ Exam fee paid £ _____

Assistant Examiner(s) _____

PART 2 To be completed by the Lead Examiner

Indicate (✓) whether the following documents were produced for verification:

<input type="checkbox"/> BHPA valid membership card/licence <input type="checkbox"/> Instructor Log Book <input type="checkbox"/> Valid Driving Licence OR PPL <input type="checkbox"/> Flight Log Book <input type="checkbox"/> 1st Aid Certificate <input type="checkbox"/> Pilot rating in the relevant discipline <input type="checkbox"/> Proof of training courses attended <small>(See Technical Manual for required documents for each licence)</small>
--

Date of examination: _____ Site: _____

Circumstances of examination (post-course, in situ at school, conversion etc.):

Comments: _____

PART 3 Examiner's recommendations (delete as necessary)

It is / is not recommended that a Licence be issued in the following categories

PARAGLIDING	HANG GLIDING	PARASCENDING
Dual Pilot <input type="checkbox"/>	Dual Pilot <input type="checkbox"/>	Dual Pilot <input type="checkbox"/>
AEI(Dual) <input type="checkbox"/>	AEI(Dual) <input type="checkbox"/>	AEI(Dual) <input type="checkbox"/>
Instructor <input type="checkbox"/>	Instructor <input type="checkbox"/>	Instructor <input type="checkbox"/>
Senior Instructor <input type="checkbox"/>	Senior Instructor <input type="checkbox"/>	Senior Instructor <input type="checkbox"/>
Senior AEI(Dual) <input type="checkbox"/>	Senior AEI(Dual) <input type="checkbox"/>	Senior AEI(Solo) <input type="checkbox"/>
 	 	Senior AEI(Dual) <input type="checkbox"/>
Senior Tow Coach <input type="checkbox"/>	Senior Tow Coach <input type="checkbox"/>	Senior Tow Coach <input type="checkbox"/>
Senior Power Coach <input type="checkbox"/>	Senior Power Coach <input type="checkbox"/>	
 	Senior Power Coach <input type="checkbox"/>	
Hill <input type="checkbox"/> Tow <input type="checkbox"/> Power <input type="checkbox"/>	Hill <input type="checkbox"/> Tow <input type="checkbox"/> Power <input type="checkbox"/> Aerotow <input type="checkbox"/>	Round <input type="checkbox"/> Square <input type="checkbox"/>

If successful the candidate has been issued with a temporary licence (see final page).

If unsuccessful it is recommended that the candidate is allowed to apply for a re-test, after _____ months.

Name (Lead Examiner): _____ Signed: _____

If the examination was not completed state the reason _____

and list those areas outstanding _____

Instructor Examination PG (Tow)

Instruction for Examiners.

PLEASE NOTE THE FOLLOWING:

The Examiner should complete the relevant check boxes on page 1 and check the relevant Flight and/or Instructor Log Book entries. Check that all other certificates are current and valid.

Before the examination starts the candidate must be briefed on what to expect and what his or her responsibilities are – it is, for instance, expected that they would take all operational decisions; the examiner intervening only if safety is threatened.

In order to pass the examination the candidate must achieve a 'Pass' for ALL the elements examined. The Examiner may choose to revisit weak areas should they feel it appropriate. Examiners must avoid turning the examination into a training session. Candidates who break a Safety Requirement or who operate in an unsafe manner should be failed automatically and the examination should stop at that point.

Overall the candidate should demonstrate a systematic and logical approach to the students' training. Demonstrations should be plentiful and of a high standard. They should demonstrate appropriate feedback with confirmation of understanding (using 'question and answer' technique), all common failings.

The candidate should show good levels of leadership and group control. They should have a reasonable working knowledge of the BHPA and its systems. This does not mean they need to be able to recite the Tech. Manual, but they should be familiar with it and be able to use it as a source of reference.

Phases 1-3 must be completed up to and including exercise 13 (as they are fundamental and the base for all other training).

Where there is the following; | _____ | _____ | then this requires a tick indicating either 'fail or pass'.

Where there is the following;

Explanation	Demo(s)	Feedback
-------------	---------	----------

 then this requires either 'fail or pass' to be inserted as appropriate. The boxes are an indication that some form of practical demonstration would normally be required, in most instances to be performed by the exam candidate.

In addition to phases 1 – 3, a minimum of 4 elements must be completed from phases 5, 6 and 7 (it must be stressed that this is a minimum and Examiners will be expected to make best use of the time available). The aim here is to cover as reasonable a cross section of elements as is possible. The examiner may choose to add more as he sees fit (eg where a candidate is borderline). Those not demonstrated practically may be covered in the interview session as required. All other elements must be completed in full.

NB. The pro-forma must be used by the examiner as it will form an important part of the records for that particular candidate.

It is expected that the Examiner will take notes during the examination to facilitate a thorough debriefing at the end of the exam. This will also aid the examiner in formulating his report to the Chief Examiner.

On completion of the examination the candidate should be debriefed to include an appraisal of strengths and weaknesses and, if failed, the reasons must be given verbally and recorded on the pro-forma.

If successful then the temporary licence should be completed and given to the candidate.

Finally, the Examiner must now personally post (1st class) the completed pro-forma to the BHPA office for processing.

PHASE 1. Ground Training

Exercise:

1. Signing membership books & Introductory Talk.
2. Airfield assessment briefing.
3. Intro to equipment & Daily inspection.
(this must be systematic and include confirmation).
4. Launch crew procedures.
5. Avoiding injury. Parachute landing fall.

fail	pass

PHASE 2. Launch Procedure and Canopy Control

6. Briefing. Pre-flight checks, airspeed, into wind etc.
7. Preparation. Helmet, harness, layout etc.
8. Launch and landing procedures.

(Insert Fail or Pass)

Explanation	Demo(s)	Feedback

PHASE 3. Flight Exercises

9. Eventualities briefing.
10. Commands and communications briefing
11. Responsibilities briefing (pilot in command)
12. Flights (i) Maintaining course and airspeed. 20m max.
13. Flights (ii) Release from line. 20m max.
14. Flights (iii) Introducing turns. 50m max.
15. Flights (iv) Simple flights plans. 150m max.

Explanation	Demo(s)	Feedback

Explanation	Demo(s)	Feedback

Explanation	Demo(s)	Feedback

Explanation	Demo(s)	Feedback

NB. PHASES 1-3 MUST BE COMPLETED TO EX. 13 AT SOME POINT DURING THE EXAMINATION

PHASE 5. Circuits.

21. Theory
22. Commands and communications briefing.
23. Planned approaches and landings.

--	--

Explanation	Demo(s)	Feedback

Explanation	Demo(s)	Feedback

- Supervision and group control.
- Use of Student Training Record books.

PHASE 6. Improving Skills

24. 180 degree turns.
25. Exploring speed range.
26. Accelerator systems (inc. warnings).
27. Weight shift / pitch control.

Explanation	Demo(s)	Feedback

Explanation	Demo(s)	Feedback

Explanation	Demo(s)	Feedback

Explanation	Demo(s)	Feedback

PHASE 7. Instability / Emergencies

28. Theory. Emergencies, parachutes, alternative control techniques.

--	--

29. Active flying.

Explanation	Demo(s)	Feedback
-------------	---------	----------

30. Rapid descent techniques (big ears).

Explanation	Demo(s)	Feedback
-------------	---------	----------

31. Asymmetric tuck recovery.

Explanation	Demo(s)	Feedback
-------------	---------	----------

32. Launch Marshal.

Explanation	Demo(s)	Feedback
-------------	---------	----------

PHASE 8. Theory Lecture

37. Meteorology.

38. Principles of flight.

39. Air law / rules of the air.

The candidate must complete a 20 minute lecture on one of the above. To be chosen by the examiner.

Location of telephone and A&E services (emergency simulation).

Supervision and group control continued.

Use of Student Training Record books continued.

Personal flying ability.

INTERVIEW SESSION.

Knowledge of BHPA structure.

Knowledge of FSC structure.

Knowledge of incident reporting procedures.

Knowledge of safety requirements and recommended practices.

Awareness of membership schemes.

Knowledge of training programme.

Knowledge of Pilot Rating Scheme.

Where the Examiner feels it appropriate, any areas not covered in the practical examination may be discussed in the interview session in addition to the elements above.

Fill in as appropriate.

TEMPORARY LICENCE

The Chief Examiner's Brief

The Lead Examiner should read out each point in the relevant section below in turn and satisfy himself that the newly licenced member is aware of the added responsibilities. After adding any constructive comments he is to complete the Temporary Licence at the bottom of this page and hand this complete page to the successful candidate.

For newly Licensed Instructors:

The Chairman of the Flying and Safety Committee wants you made aware of the following points:

1. You may only instruct students in the disciplines shown on your licence.
2. You have a DUTY OF CARE towards your students. Don't be intimidated by anyone to carry out operations or training that you are not happy with; and do not hesitate to cease flying or restrict or repeat exercises.
3. You MUST warn all newcomers into the sport about the RISK of injury. It is a sport - NOT a fun fair ride.
4. Make certain that every student is a BHPA member - issue an Introductory Membership Certificate or check their BHPA membership card.
5. Treat every situation as unique - students, launches and flights. Be ready for the unexpected and remember that the weather can change dramatically, especially in hilly terrain, near the coast, or in the summer.
6. If you're not sure whether or not to submit an Incident Report, then send it anyway.
7. Read, take note and act on all Safety and Training information which may appear in SKYWINGS magazine, plus any official Safety Notices you may receive.
8. The issue of your licence means you are considered competent to operate unsupervised and to train students and pilots to all levels within the permitted categories. You have much still to learn, however, but providing you maintain the correct attitude and approach to the sport you will improve as your experience grows.
9. You should be thoroughly conversant with the relevant sections of the Technical Manual.
10. SAFETY REQUIREMENTS AND OPERATING PROCEDURES MUST BE FOLLOWED.
11. To add Extensions to this new Licence you should contact your CFI for details of how to proceed.

LEAD EXAMINER'S COMMENTS: _____

TEMPORARY LICENCE

This is to certify that, subject to compliance with the Rules and Regulations of the British Hang Gliding & Paragliding Association, a temporary Licence is granted in the category shown below for a period of 28 days from:

Date: _____

PARAGLIDING	HANG GLIDING	PARASCENDING
Dual Pilot <input type="checkbox"/>	Dual Pilot <input type="checkbox"/>	Dual Pilot <input type="checkbox"/>
