

Pilot's Declaration: Uncertified Wings

BHPA members are advised to fly wings that have a Certificate of Airworthiness for Type issued under the BHPA, HGMA, DHV/LTA, CEN or AFNOR schemes, and carry the appropriate sail badge.

Pilots who wish to ignore BHPA advice and instead fly wings that have no acceptable independent verification of their airworthiness (Eg. development gliders and modified production gliders) are required to complete the following declaration.

*I (name) _____, fully understand the risks involved in flying uncertified wings, and confirm that the BHPA and its officers will not be held responsible for any liabilities arising from myself flying such wings.
(I understand that this does not impinge on my third party insurance cover, which is unchanged).*

The Pilot's Declaration is valid whilst you fly in compliance with BHPA Rules and:

- are piloting a HG, PG (any size) or PA and hold at least a CP rating in the relevant discipline and are qualified in the environment. This declaration applies to solo flight only. Dual flying on uncertified wings or wings flown outside their certified weight range is expressly excluded.
or
- are piloting an SSDR aircraft and hold a valid CAA PPL/NPPL, Certificate of Experience and medical certificate and have complied with CAA SSDR registration requirements.
or
- are piloting a Human Powered Aircraft, possess the skills necessary to do so, and are operating in winds of less than 10mph, at heights below 100ft agl and only within the confines of an airfield.
